

„LEARNING THAT LASTS – NOT LEARNING THAT’S LOST!“

# TiE-BAC: TEACHING IN ENGLISH

## Basic and Advanced Courses

### STARTING POINT

You want to give the best possible seminar or lecture to your audience?  
You also wish to create a learning environment where your students can actively participate in exercises and ask questions?

### CONTENTS

We give you an introduction to theoretical and practical didactic aspects of university teaching and learning, focusing on activating and innovative methods and media in basic and advanced courses.

### METHODS

Interactive courses, short lectures, demonstration, exercises, single tasks, group work, presentations, discussion, exchange of experience, application and transfer to daily teaching practice.

### LEARNING OUTCOMES AND COMPETENCE DEVELOPMENT

Active learning processes and individual teaching practice support you to improve your teaching competences.

### CERTIFICATE IN ENGLISH

Certificate of participation for each attended course and a cumulative certificate on all courses.

### TARGET GROUP

Visiting scholars, international researchers and lecturers, non-native English resp. also German teaching staff who are already teaching or supposed to teach in English.

Teaching in English and teaching an international student group who are also mostly non-native English speakers is a challenge when it is not your first language!

**TiE - BAC**
